

## FINDING OF NO SIGNIFICANT IMPACT

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed action below:

Project: Western Area Water Supply Authority (WAWSA) – McKenzie County Water Resource District (MCWRD) system 2018 Storage Improvements

Location: McKenzie County, North Dakota

DWSRF Project No.: 2701477-02

Total Cost: \$7,188,000

The proposed project is for storage improvements to the regional water system. Expanded energy related ventures, have brought a large new workforce to the area and significantly increased residential water demands. Without additional storage, the potential for unreliable service and scarce water resources to northeastern and western McKenzie County is high.

The project site will include an easement along approximately 2 acres of land and will provide water to rural customers. For a further discussion of this see Item V, Environmental Impacts of Proposed Project in the Environmental Assessment document. Wetlands, area flood plains, threatened or endangered species habitat, or archeological sites will not be adversely impacted.

The review process did not indicate significant environmental impacts would result from the proposed action. Consequently, a preliminary decision not to prepare an environmental impact statement has been made. This action is taken on the basis of a careful review of the engineering report, environmental information document, and other supporting data which are on file in the Municipal Facilities Division of the North Dakota Department of Health.

Comments concerning this decision may be addressed to Henok Woldeyes, Environmental Engineer, Division of Municipal Facilities, North Dakota Department of Health, 918 East Divide Avenue, 3<sup>rd</sup> Floor, Bismarck, ND, 58501-1947.

After evaluating the comments received, the agency will make a final decision; however, no administrative action will be taken on the project for at least 30 calendar days after release of the Finding of No Significant Impact.

Dated the 28<sup>th</sup> day of June 2018

David J. Bruschwein, P.E.  
Director  
Division of Municipal Facilities
