

Amendment to the 2026 INTENDED USE PLAN

for the
NORTH DAKOTA DRINKING WATER STATE REVOLVING FUND

prepared by the
DRINKING WATER STATE REVOLVING FUND PROGRAM
DIVISION OF MUNICIPAL FACILITIES

July 15, 2026

Purpose

North Dakota's 2026 DWSRF Intended Use Plan (IUP) was submitted to EPA Region 8 on December 31, 2025. The IUP has been incorporated into the capitalization grant agreement between the NDDEQ and EPA.

All projects, except for projects funded on an emergency basis, must be ranked using a State's priority system and go through a public review process prior to receiving assistance (40 CFR §35.3555). To ensure that projects are able to proceed to construction in a timely manner in order to ensure the health and welfare of the citizens of North Dakota, the NDDEQ submits this revision to its IUP.

Water systems were given the opportunity to submit projects for ranking and inclusion on the 2026 revised IUP. Twenty-nine projects were submitted, ranked, and added to the priority list. The revised Appendices B-D includes the additional projects. Additional subsidization will not be available to these projects in 2026 but will be reconsidered in future years.

Appendix B

Comprehensive project priority list and fundable list for 2026 base and supplemental funding

Alphabetical Order

Shaded projects are on the fundable list
Projects added to the amended list are in red
