Upon the completion of its review, the Zoning Commission shall take action for approval, denial or modification of the petition. The Zoning Commission may require additional information before it completes its findings and takes action.

8.1.3 Data Submission Requirements

Petitions for zoning district change and conditional uses shall be submitted with the following information:

- 8.1.3.1 Legal description of the area proposed to be rezoned, the name and addresses of all owners of property lying within one mile of the site.
- 8.1.3.2 A map showing the existing land uses and zoning district classification of the area.
- 8.1.3.3 A site plan showing buildings and uses in the zoning district proposed to be changed and the requested zoning district classification.

8.1.4 Deliberation and Decision

Following the hearing, the Zoning Commission, upon due deliberation, shall make a report of its findings and decides on the proposed amendment within 30 (thirty) days after the hearing. In making

its finding, the Zoning Commission shall ascertain as to whether the proposal for zoning district amendment is consistent with the township Comprehensive Plan and meets all requirements of these regulations and other regulations of the township.

8.2 Conditional Use Permits

8.2.1 Purpose

The development of these regulations is based upon division of the township into districts, within which district the use of land and building bulk and locations of building and structures are mutually compatible and substantially harmonious. However, there are certain uses which, because of their unique characteristics, cannot be properly classified as permitted uses in any particular district, without consideration, in each case, of impact of those uses upon neighboring premises. Such uses, nevertheless, may be necessary or desirable to be allowed in a particular district provided that due consideration is given to location, development and operation of such uses.

8.2.2 Public Hearing Notice

Shall be the same as the provisions set forth for public hearing notice for zoning district amendment in Section 8.1.1.

8.2.3 Public Hearings

Shall be the same as the provisions set forth for public hearing for zoning district amendment in Section 8.1.2.

8.2.4 Data Submission Requirements

Shall be the same as the provisions set forth for data submission requirements for zoning district amendment in Section 8.1.3.

8.2.5 Deliberation and Decision

Shall be the same as the provisions set forth for deliberation and decision for zoning district amendment in Section 8.1.4

8.2.6 Standards

No application for conditional use shall be approved unless the zoning commission finds that all of the following conditions are present.

- 8.2.6.1** That the establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, morals, comfort or general welfare.

- 8.2.6.2 That the uses, values and enjoyment of other property in the neighborhood for purposes already permitted shall be in no foreseeable manner substantially impaired or diminished by the establishment, maintenance or operation of the conditional use.
- 8.2.6.3 That the establishment of the conditional use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the district.
- 8.2.6.4 That adequate utilities, access roads, drainage and other necessary site improvements have been or are being provided.
- 8.2.6.5 That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic impact on the area.
- 8.2.6.6 That the conditional use shall substantially conform to all applicable regulations of the district in which it is located.

8.2.7 Conditions and Guarantees

- 8.2.7.1 Prior to the decision on any conditional use, the Zoning Commission may stipulate such conditions and restrictions upon the establishment, location, construction, maintenance and operation of the conditional use as deemed necessary to promote the public health, safety and general welfare of the township and to secure compliance with the standards and requirements specified in Section 8.2.6. In all cases in which conditional uses are granted, the Zoning Commission shall require such evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with.
- 8.2.7.2 No alteration of a conditional use shall be permitted unless approved by the Zoning Commission. Where the Zoning Commission has approved or conditionally approved an application for a conditional use, such approval shall become null and void within 12 (twelve) months of the date of the Zoning Commission action unless the use is commenced, construction is underway or the current owner possesses a valid building permit.

8.3 Variances

Variance from the terms of these regulations may be granted provided that the applicant establishes proof of practical difficulty or undue hardship.

8.3.1 Public Hearing Notice

The Zoning Commission shall hold a public hearing, a notice of which shall be published at least 15 (fifteen) days prior to the hearing in the official newspaper of the county. The notice of hearing shall include: (1) the time and place of hearing; (2) description of the property by street address for platted lands and clearly identifiable location for the unplatted lands; (3) the proposed use and

requested zoning district change; (4) time and place for public inspection of the documents before the hearing.

8.3.2 Public Hearings

The Zoning Commission at the hearing shall listen to all persons who may speak in support of or in opposition to the proposal. Upon the completion of its review, it shall approve, deny or modify the proposal. The Zoning Commission may require additional information before it completes its findings and decision.

8.3.3 Data Submission Requirements

Petitions for variances shall be submitted with the following information.

- 8.3.3.1 Legal description of the area proposed to be rezoned, the name and addresses of all owners of property lying within one mile of the site.
- 8.3.3.2 A map showing the existing land uses and zoning district classification of the area.
- 8.3.3.3 A fee shall be paid in accordance with the schedule established by the Zoning Commission.

8.3.4 Deliberation and Decision

In making its finding, the Zoning Commission shall ascertain that the requests for variance is consistent with the township Comprehensive Plan and meets all requirements of these regulations and other regulations of the township.

8.3.5 Standards

No application for variance shall be approved unless the Zoning Commission finds that all of the following are present.

- 8.3.5.1 That special conditions and circumstances exist which are peculiar to the premises and which are not applicable to other premises in the same zoning district.
- 8.3.5.2 That literal interpretation of these regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district.
- 8.3.5.3 That the special conditions and circumstances have not resulted from actions of the applicant.
- 8.3.5.4 That granting the variance requested will not confer upon the applicant any special privileges that are denied by these regulations to other premises.

8.3.6 Justification

- 8.3.6.1 That the reasons set forth in the application justify the granting of the variance.
- 8.3.6.2 The variance is the minimum which would make possible a reasonable use of the premises.
- 8.3.6.3 That the granting of variance will be in harmony with the general purpose of these regulations and will not be injurious to the surrounding premises, neighborhood or the city and will not be contrary to the comprehensive plan and the purposes of these regulations.
- 8.3.6.4 That there is practical difficulty or unnecessary hardship in use of the premises if the strict application of the regulations were to be carried out.

8.3.7 Authorized Variances

A variance shall not be granted for any yard or setback less than the yard or setback as required by these regulations.

- 8.3.7.1 To reduce not by more than twenty percent (20%) the applicable requirements for lot area and lot width.
- 8.3.7.2 To reduce the applicable off-street parking or loading facilities by no more than fifty percent (50%) of the requirements.
- 8.3.7.3 To permit the use of lot of record if it is smaller than the minimum size required by these regulations.
- 8.3.7.4 To permit roof alterations to provide additional windows, headroom or area for occupancy of third level.
- 8.3.7.5 To permit conversion of an existing building to a permitted residential use provided that is shall not conflict with the above standards cited in Sections 8.3.5 and 8.3.6.

INTRODUCTION

165877

Grandview Township is located in LaMoure County. It is located in the northeast area of the county.

This plan examines the physical and social characteristics of Grandview Township. It presents this information in the form of text, tables, and maps. The plan is designed to help guide responsible land use planning and control. In an effort to keep this document a useful and applied tool, it is being kept to a limited size. Additional information is available through Lake Agassiz Regional Development Corporation in Fargo, North Dakota.

GOALS AND OBJECTIVES

The Grandview Township Comprehensive plan is to be used as a guide on which the development policies and regulations will be based. The plan was used to help develop goals, objectives and policies. As conditions change, so should the plan. Being a flexible document, this plan will reflect the changing goals of the citizens of the Township. For clarification, a "goal" is a broad, general concept that the Township wishes to attain in the future. An "objective" is a more specific, measurable step to be taken toward achieving a goal. A "policy" is a general principle that guides the actions taken to meet the goals and objectives.

Four goals have been established. Each addresses a particular subject. They all work together towards providing guidelines to ensure desired land use in the Township. Goals, objectives and policies are:

GOALS

GOAL #1

Preserve the Township's agricultural heritage.

OBJECTIVES:

- A. Preserve prime farmland in an organized transition by using the land use controls provided in this comprehensive plan and its corresponding zoning ordinance when making all land use decisions.
- B. Support farms by being active in legislation affecting agriculture and industrial usage; send letters from the Township Officers to state and federal officials involved in the decision.

POLICIES:

- 1. Support agriculture and appropriate farm programs.
- 2. Support an equitable agricultural land taxation system.
- 3. Discourage and control residential developments, which interfere with farming.
- 4. Encourage siting public facilities and utility easements in locations, which would minimize interference with farming.

5. Allow residential development only in existing subdivisions or no more than 1 unit per 160 acres.

GOAL #2

Protect public health, safety and welfare by deterring incompatible land uses from harming conforming land uses.

OBJECTIVES:

- A. Refer to this plan to determine if land use requests are consistent with the natural resources.
- B. Adopt a zoning ordinance consistent with this plan.
- C. Use the zoning ordinance provisions to prevent incompatible land uses.
- D. Acquire soil surveys from the soil conservancy offices.

POLICIES:

1. Discourage nonagricultural development on fertile soils.
2. Prevent undesirable, incompatible land uses from locating in the Township unless they meet appropriate conditions.
3. Make land use decisions in accordance with this plan.
4. Deter offensive and incompatible land uses (such as hog barns) from locating near dwellings and communities.

GOAL #3

Provide an adequate, safe, and efficient system for the transportation of people, goods and services.

OBJECTIVES:

- A. Provide well-maintained gravel roads for all mail routes, school bus routes, and other routes deemed "high priority" by the Township's elected officers.
- B. Appoint a "Road Overseer" who periodically inspects and maintains a record of the conditions of all Township roads, bridges and signs.

POLICIES:

1. Discourage developments, which would create congestion and/or road hazards, or damage Township roads without compensation.
2. Encourage development to locate in areas served by adequate transportation facilities.
3. Downgrade, abandon, or close township roads and bridges when appropriate.
4. Use erosion/sediment control standards in road construction.
5. The "Road Overseer" shall promptly notify appropriate governmental units when their transportation facilities within the Township require repair.

GOAL #4

Ensure and maintain the public participation in land use decisions affecting the Township.

OBJECTIVES:

- A. Maintain dialogue between citizens and elected officials by posting notices and by publishing public notices for all public hearings.
- B. Create public awareness of planning goals and objectives by making this document available to the public upon request, and publishing a statement to that effect.

POLICIES:

- 1. Give timely notice of all meetings and hearings.
- 2. Actively solicit public opinion about land use decisions.
- 3. Consider using citizen input when making public decisions.
- 4. Inform citizens of decisions and actions taken by officials.
- 5. Make public documents available for review.
- 6. Encourage education for officials and general public.

PUBLIC FACILITIES AND SERVICES

TRANSPORTATION

Table #7 shows the mileage of the various types of road systems in the township. These highways are important for the transportation of agricultural equipment, services, and produce.

There are about 76 miles of township roads in the Township. 41 miles of Township roads are rated as "high priority", meaning they are well-maintained gravel roads that are cleared soon after snowfalls. They are generally mail and school bus routes. "Low priority" roads are generally dirt roads that are not cleared in the winter.

FIRE DISTRICTS AND DEPARTMENTS

Fire districts are taxation districts to raise revenue for fire protection. Every fire district has a fire department, but not every fire department has a fire district. Some fire departments are funded through the general tax funds instead of a special fire district. All fire departments receive some money back from the fire insurance paid by property owners. The state collects the money from the insurance companies and distributes it back down to the local fire departments.
