AN APPROVAL TO OPEN BURN LIQUID HYDROCARBONS IS SUBJECT TO THE FOLLOWING:

1. Only those liquid hydrocarbons that cannot be practicably recovered or otherwise lawfully disposed of in some other manner may be burned.

2. The burning shall comply with all applicable state and local rules, codes and ordinances.

3. When the burning is conducted near any highway or public road, it must be controlled so that a traffic hazard is not created as the result of the air contaminants being emitted.

4. The burning must not be conducted within a city or adjacent to an occupied residence or in such proximity that the ambient air of such city or occupied residence may be affected by the air contaminants being emitted.

5. Except in an emergency, the burning of liquid hydrocarbons may not be conducted in such proximity of any Class I area, as defined in Chapter 33.1-15-15 of the North Dakota Air Pollution Control Rules, that the ambient air of such area is adversely impacted by the air contaminants emitted, and that the visibility of such area is adversely impacted as defined in Chapter 33.1-15-19 of the North Dakota Air Pollution Control Rules.

6. The local/appropriate fire department or county sheriff's office must be notified at least two hours prior to burning.

7. Burning activities must be attended and supervised at all times burning is in progress.

8. Burning is prohibited if the fire index is in the "extreme" category as issued by the National Weather Service. Notification to the Department is required prior to starting the burn if the fire index is in the "very high" category.

9. If state or local officials determine conditions to be unsafe for open burning, such burning must cease until conditions are deemed to be safe by such officials.
